

## SEND SMS FROM YOUR PLANNERS

Released with VISUAL PLANNING 4.4, this new module allows to send **SMS directly from your planners.**

In 2 clicks, users can send messages at will, directly from planner's events.

Based on the « WebSMS » « state of the art » techniques, this module is really user-friendly, and only needs one prerequisite : a connection to internet

With the other modules of VISUAL PLANNING (Mail Sending, Messaging, VPMobile) this new option d'envoi makes **VISUAL PLANNING more and more agile in communicating!**

### Your need

- \* Warn my technicians, in 2 clicks, of a last minute change in schedule?
- \* Notify a correspondent, unable to connect itself to VISUAL PLANNING, that his planning has changed ?
- \* Find a professional way to communicate with your customers ?

### Our offer

- ✓ Customized patterns,
- ✓ Individual of « massive » sending («Information campaigns»),
- ✓ Traceability of SMS sent,
- ✓ Specific permissions for setting and invoicing options.

### Your benefits

- ➔ Acceleration in information flow,
- ➔ Increase in your communication capabilities,
- ➔ Independence of addressees vis-à-vis VISUAL PLANNING,
- ➔ Quick ROI.

### Prerequisites and compliance
