

COORDINATE PLANNERS AND AGENDAS

Released with VISUAL PLANNING 4.4 since late 2008, the Messaging module replaces the option "sync Outlook previously offered.

Calendar interface allows the user to send events directly in its planner, and retrieve calendar entries in the planner as well.

Using the Messaging module is simple and fast: it is just like sending invitations to meetings : if the recipient (valid email address) accepts the invitation, then the appointment is added to his agenda.

For more responsiveness, better communication , and fluidity of information in your company: Choose VISUAL PLANNING and its Messaging Module !
