

MAP VISUAL PLANNING DATA WITH WORD TEMPLATES

VISUAL PLANNING is the web leading solution of **graphical planning**. User friendly, scalable, adaptable to all resources allocation concerns, VISUAL PLANNING is used by more than 4,000 firms around the world. The Mailshot module complements the catalog of options of VISUAL PLANNING (E-Mail Sending, SMS Sending, Workload...).

- **Map your existing Word patterns** with VISUAL PLANNING data,
- Restrict this feature to authorized users.
- Run your mailshots (single letters, mailing...) on 1 click from rows, model icons or events of your planners !

The screenshot displays the Visual Planning interface. On the left, a table lists personnel with columns for 'Nom-Prénom', 'Agence', 'Solde', and 'Cor'. An orange arrow points from a row in this table to a Microsoft Word document template on the right. The template contains fields for 'SOCIETE', 'Genre', 'Prénom', 'NOM', 'Adresse1', 'Adresse2', 'CP', 'VILLE', and 'PAYS', along with a date field 'Nanterre, le 31 mars 2010' and a Microsoft Word icon.

Your need

- * Run a mailshot from sales follow-up planner?
- * Send your customers a notice from after-sales planner?
- * Edit data from an event in your own formalism?
